

PQ 7691
Table 4: Number of grants and declines for Emergency Housing from 1 January 2023 to 30 September 2025
by quarter ending, outcome and ethnicity

General Notes:
This is a count of grants and declines. A client could have more than one grant or decline in a period.
Ethnicity data is self-identified and multiple ethnicities may be chosen by an individual as fits their preference or self-concept.
Total response ethnicity means that if a person identifies with more than one ethnic group, they are counted in each applicable group.
Because a client can choose more than one ethnic response, the total number of ethnic responses will be greater than the number of grants or declines.
MELAA refers to Middle Eastern, Latin American, and African.
'Unknown' is where ethnicity is not recorded. 'Other' is where ethnicities fall outside the reported ethnicities.

Confidentiality Notes:
To protect confidentiality the Ministry of Social Development uses processes to make it difficult to identify an individual person or entity from published data.
These data tables have had random rounding to base three applied to all cell counts in the table.
The impact of applying random rounding is that columns and rows may not add exactly to the given column or row totals.
The published counts will never differ by more than two counts.
