Notes:

- This only includes priority A and B applications.
- Rangatahi have been interpreted as young people aged between 15-24 years old.
- This includes applications on both the Housing Register and Transfer Register.
- Ungeocoded address records that are unable to be matched to a TLA through suburb and city details have an unknown TLA.
- To protect confidentiality the Ministry of Social Development uses processes to make it difficult to identify an individual person or entity from published data.
- These data tables have had random rounding to base three applied to all cell counts in the table.
- The impact of applying random rounding is that columns and rows may not add exactly to the given column or row totals.
- The published counts will never differ by more than two counts.
