

Appendix One: People in prison who have not yet been assigned a case manager, as at 31 May 2024, broken down by prison.

Table notes:

- The number of people in prison fluctuates regularly due to arrests, releases, and court decisions. Corrections currently manages approximately 9,600 people in prison.
- The figures below also include people who have been in prison for fewer than 10 days, and those that have previously had a Case Manager allocated to them, but did not have one allocated to them as 31 May 2024.
- Figures are not directly comparable between prisons. Prison populations vary in size and demographics, including security classifications of the people they manage. Some prisons predominantly manage people on remand while other prisons predominantly manage sentenced prisoners.
- Table two is broken down by most serious offence type, however prisoners may be imprisoned for multiple offence types.
