**Notes:**

- This is a count of grants. A client can have more than one grant in the time period.
- Amount granted is not necessarily the amount spent.
- To protect confidentiality the Ministry of Social Development uses processes to make it difficult to identify an individual person or entity from published data.
- These data tables have had random rounding to base three applied to all cell counts in the table.
- The impact of applying random rounding is that columns and rows may not add exactly to the given column or row totals.
- The published counts will never differ by more than two counts.

**WPQ 29673 (2023) Table Two: The number of grants and amount for school education costs from 1 January 2017 to 30 September 2023, by quarter and age group.**

**Notes:**

- This is a count of grants. A client can have more than one grant in the time period.
- Amount granted is not necessarily the amount spent.
- To protect confidentiality the Ministry of Social Development uses processes to make it difficult to identify an individual person or entity from published data.
- These data tables have had random rounding to base three applied to all cell counts in the table.
- The impact of applying random rounding is that columns and rows may not add exactly to the given column or row totals.
- The published counts will never differ by more than two counts.

**WPQ 29673 (2023) Table Three: The number of grants and amount granted for school education costs from 1 January 2017 to 30 September 2023, by quarter and gender.**

| Hardship type    | Quarter ending | Gender               | Number of grants | Amount granted     |
|------------------|----------------|----------------------|------------------|--------------------|
| School Education | March 2017     | Female               | 21,213           | \$4,480,787        |

#### Notes:

- This is a count of grants. A client can have more than one grant in the time period.
- Amount granted is not necessarily the amount spent.
- From 2 December 2019, The Ministry of Social Development has three options to record a client's or child's gender: Male, Female or Gender Diverse.
- To protect confidentiality the Ministry of Social Development uses processes to make it difficult to identify an individual person or entity from published data.
- These data tables have had random rounding to base three applied to all cell counts in the table.
- The impact of applying random rounding is that columns and rows may not add exactly to the given column or row totals.

- The published counts will never differ by more than two counts.

**WPQ 29673 (2023) Table Four: The number of grants and amount granted for school education costs from 1 January 2017 to 30 September 2023, by quarter and ethnicity.**

| Hardship type    | Quarter ending | Total Response Ethnicity              | Number of grants | Amount granted     |

#### Notes:

- This is a count of grants. A client can have more than one grant in the time period.
- Amount granted is not necessarily the amount spent.
- To protect confidentiality the Ministry of Social Development uses processes to make it difficult to identify an individual person or entity from published data.
- These data tables have had random rounding to base three applied to all cell counts in the table.
- The impact of applying random rounding is that columns and rows may not add exactly to the given column or row totals.
- The published counts will never differ by more than two counts.
- Ethnicity data is self-identified and multiple ethnicities may be chosen by an individual as fits their preference or self-concept.
- Total response ethnicity means that if a person identifies with more than one ethnic group, they are counted in each applicable group.
- Because a client can choose more than one ethnic response, the total number of ethnic responses will be greater than the number of clients.
- 'Not Specified' is where ethnicity is not recorded.
- 'Other ethnicity' is where ethnicities fall outside the reported ethnicities.
