Notes:

- A client can receive more than one grant in a period.
- The unique client count shows individuals clients just once in the month.
- The table includes working age only (18 to 64 years).
- To protect confidentiality the Ministry of Social Development uses processes to make it difficult to identify an individual person or entity from published data.
- These data tables have had random rounding to base three applied to all cell counts in the table.
- The impact of applying random rounding is that columns and rows may not add exactly to the given column or row totals.
- The published counts will never differ by more than two counts.
