

Table 14316 (2026). What was the composition of vehicle fleets, if any, in the Minister’s department’s, agencies, crown entities or any other bodies that the Minister is responsible for, if any, by fuel type in percentage terms in 2025?

Year	Diesel	Electric	Petrol	Petrol/Diesel Hybrid	Plug-in Petrol Hybrid
2020	9.2%	0.5%	79.3%	10.8%	0.1%
2021	8.9%	3.6%	71.9%	15.5%	0.1%
2022	8.7%	7.4%	60.0%	23.6%	0.4%
2023	7.9%	16.0%	47.5%	27.0%	1.7%
2024	7.3%	18.8%	42.7%	29.4%	1.7%
2025	7%	19%	32%	40%	2%

Notes:

- Data extracted 17 April 2026
- Comprehensive fleet composition data held by Health New Zealand is not readily available for the 2026 calendar year.
- Since 2019, NZTA has provided data to MBIE as part of the Government Fleet Dashboard. This is based on light vehicle registrations information (< 3.5 tonne). For Health NZ (and combined DHB fleets for years prior to establishment of Health NZ), the NZTA unverified data shows the above fleet composition percentages as at December of each calendar year.
