

Appendix One: The number of women who have started or completed a rehabilitation programme, if any, by rehabilitation service type, for the month of September 2025.

Rehabilitation service type	Starts	Completes
Rehabilitation programmes	0	8
Psychology programmes	0	0
Alcohol and other drugs	0	0

Table notes:

- This data provided is manually recorded at each site and is provided to the best of Corrections' ability.
- Some starts that have occurred may not yet be recorded in our database, meaning that this information may be subject to change over time.
- Starts and completes represent the number of unique people who have started or completed a programme during the month.
- Although there are no recorded starts and completes Alcohol and Other Drug (AOD) programmes and Psychology Programmes during the month of September it should be noted that women were attending AOD and Psychology programmes during this time.
- Some programmes are not scheduled to start and finish evenly throughout the year so those that started during a particular month may not finish their programme during that same month.
- Completes data includes people who began a programme prior to the month they completed that programme.
- A person's eligibility to participate in any particular programme can depend on a number of factors, including their security classification, identified risks and willingness to engage.
- The data includes programme statistics for addiction, psychology and rehabilitation and does not include all therapeutic, cultural or employment-related programmes which are offered in prison.
