Notes:

This is a count of declines. A client may have more than decline within a period.

To protect confidentiality the Ministry of Social Development uses processes to make it difficult to identify individuals. These data tables have had random rounding to base three applied to all cell counts in the table. Random rounding does not round down to zero, a value of one or two will be rounded to three. The impact of applying random rounding is that columns and rows may not add exactly to the given totals. The published counts will never differ by more than two counts. In certain circumstances, low numbers may potentially lead to individuals being identified. Due to these privacy concerns, numbers for some categories of clients have been suppressed or aggregated. Secondary suppression rules have also been applied when required. Suppressed numbers have been replaced by an 'S'.
