

Table 20368 (2026). How many Registered Nurses from the end of year intake remain in the Advanced Choice of Employment talent pool to date, broken down by entries, exits and net change since the pool opened?

Intake	Number of RNs Entered in Talent Pool	Number of RNs Employed through Talent Pool	Number of RNs Exited Talent Pool: Other reasons	Numbers of RNs remained in Talent Pool
End of Year 2025 as of 25 May 2026	896	534	85	277

Notes:

- Data extracted 25 May 2026.
- The number of applicants who entered the talent pool is reported as at the date the National Talent Pool opened for the End of Year 2025 intake.
- The End of Year 2025 talent pool opened on 1 December 2025, followed by the match process. Employers continue to hire applicants from the talent pool when vacancies arise until it closes on 19 June 2026.
- Other reasons for applicants exiting the talent pool include withdrawal due to employment elsewhere, no reason being provided, or failing the State Final Examination.
- Talent pool figures for the End of Year 2025 intake may include repeat applicants from previous Advanced Choice of Employment (ACE) RN intakes.
- ACE data is limited to employment updates received from ACE employers and graduates. Applications are removed from the talent pool when ACE receives notification from either an ACE employer or a graduate that the applicant has accepted employment, voluntarily withdrawn, or otherwise exited the talent pool.
