*As part of previous contract

**A previous contract was in place. Funding levels have remained consistent, with annual CPI adjustments applied.

*** Funding arrangements still being agreed.

Notes

Total funding may not equal the sum of funding years due to start dates differing from financial year dates, inclusion of non-annual funding items such as one-off establishment costs, and rounding within Health New Zealand's contract management systems.

Health NZ also holds contracts with non-Rainbow-specific providers that may include dedicated services or supports for the Rainbow community.
