Notes –

1. Data includes main tenant only. Does not include other household members.
2. This information is collected manually and relies on individuals advising Kāinga Ora that they are moving into private housing; therefore, the numbers may not provide a complete picture.
3. This is Total Response data where people have been asked to identify their own ethnicity. Those who identified with more than one ethnicity were counted once in each group they identified with. The sum of the responses for all ethnic groups will be greater than the number of people responding.
4. 'MELAA' is Middle Eastern/Latin American/African.
