Notes:

- This is a count of grants/declines not clients. A client may have more than one grant/decline during the reporting period.
- Applications processed are applications approved or declined in the given period.
- To protect confidentiality the Ministry of Social Development uses processes to make it difficult to identify an individual person or entity from published data.

- These data tables have had random rounding to base three applied to all cell counts in the table.
- The impact of applying random rounding is that columns and rows may not add exactly to the given column or row totals.
- The published counts will never differ by more than two counts.
