Notes:

- This is a count of grants and declines, not clients. A client can have more than one grant or decline in the period.
- A client may have declined and granted an RCL application in the period.
- Applications processed are applications approved or declined in the given period.

- To protect confidentiality the Ministry of Social Development uses processes to make it difficult to identify an individual person or entity from published data.
- These data tables have had random rounding to base three applied to all cell counts in the table.
- Random rounding does not round down to zero, a value of one or two will be rounded to three.
- The impact of applying random rounding is that columns and rows may not add exactly to the given column or row totals.
- The published counts will never differ by more than two counts.
