

PQ 29124 (2023). Arena Williams to the Minister for Building and Construction:

Does the Minister intend to progress a “review of the building code with a goal to introduce streamlined risk-based consenting that considers the size and complexity of a development and the builder’s credentials” as outlined in the National Party’s ‘Better Building and Construction’ document, and if so, what advice, reports, briefings, aides-memoire, or any other documents has the Minister, or any member of their Office received during the week of 27 November 2023, on this by title and date?
