

PQ 00938 (2013) - Which Early Childhood Education centres, listed by name and location, had less than 80% qualified teaching staff in 2010?

ECE teacher-led, centre-based services with fewer than 80% of their teaching staff with ECE qualifications approved by the NZ Teachers Council (End of June 2010)

This list is based on the count of qualified teachers as a percentage of the count of all teachers in a service. As such, it can include more teachers than the number required to meet the regulated teacher/child ratios (i.e. regulated staff).
