WPQ 35099 (2026) Hon Damien O'Connor – How many standing consents are currently in force, how many individual transactions do those consents collectively authorise, and what is the total area of land in hectares that may be acquired under them?

35099 (2026)	Number of active standing consents	Number of individual consents (transactions/developments) authorised	Total land area (hectares) that may be acquired under the consents
Forestry	7	217	70,000
Residential	4	64	189
	3	An unlimited number of transactions in up to 45 developments	1,050

Note:

- The last forestry standing consent will expire on 12 June 2028 and cannot be renewed.
- For residential standing consents, the information in the table below excludes standing consents that can no longer be used to enter into new transactions but may still have pending transactions awaiting settlement.
- Some residential standing consents limit the number of transactions allowed, while others allow an unlimited number of transactions provided the transactions are part of a limited number of developments.
