

Table 27915 (2023). Breast screening two-year coverage rates as at October 2023 broken down by age and ethnicity.

Age group	Māori	Pacific	Other	Total
45 - 49	57%	62.2%	67.9%	65.9%
50 - 54	59.9%	61.2%	65.8%	64.7%
55 - 59	60.7%	62.7%	68.6%	67.2%
60 - 64	61.2%	66.7%	68.1%	67.2%
65 - 69	63%	69.1%	71.2%	70.3%
Total	60.1%	63.7%	68.2%	66.9%

Table notes:

- Sourced from [BreastScreen Aotearoa Coverage Report \(shinyapps.io\)](https://shinyapps.io/BreastScreenAotearoaCoverageReport/).
- Numbers in the table are percentages, so we can't expect the average of the percentages to be the same as the overall percentage for a group – except in the very unlikely event the groups are all the same size. See denominators and numerators below for Māori as an example.

Ethnicity	Age	Numerator	Denominator	%
Māori	45 - 49	13519	23710	57.0%
Māori	50 - 54	14588	24339	59.9%
Māori	55 - 59	13279	21865	60.7%
Māori	60 - 64	12061	19717	61.2%
Māori	65 - 69	8763	13913	63.0%
Māori	Total	62210	103544	60.1%
