Notes:

- This is a number of grants and declines not a number of clients. A client may have more than one grant or decline in the reported period.
- There were no grants or declines processed during the missing months.
- Applications processed are applications approved or declined in the given period.
- To protect confidentiality the Ministry of Social Development uses processes to make it difficult to identify an individual person or entity from published data.
- These data tables have had random rounding to base three applied to all cell counts in the table.
- A value of one or two may be rounded to zero or three.
- The impact of applying random rounding is that columns and rows may not add exactly to the given column or row totals.
- The published counts will never differ by more than two counts.
