- These data tables have had random rounding to base three applied to all cell counts in the table.

- The impact of applying random rounding is that columns and rows may not add exactly to the given column or row totals.
- The published counts will never differ by more than two counts.

Notes:

- Working age are clients 18 to 64.
- This is a count of sanctions, not clients. A client can have more than one sanction within the time period.
- Jobseeker Support Health Condition and Disability includes Jobseeker Support Health Condition, Injury or Disability and Jobseeker Support Health Condition, Injury or Disability Hardship.
- This does not include Jobseeker Support Work Ready clients.
- Supported Living Payment includes Supported Living Payment Carers and Supported Living Payment Health Condition, Injury or Disability clients.
- To protect confidentiality the Ministry of Social Development uses processes to make it difficult to identify an individual person or entity from published data.
- These data tables have had random rounding to base three applied to all cell counts in the table.
- Random rounding does not round to zero. A value of one or two will be rounded to three.
- The impact of applying random rounding is that columns and rows may not add exactly to the given column or row totals.
- The published counts will never differ by more than two counts.
