

Table 14651 (2026). How many litres of diesel, if any, did vehicle fleets in the Minister’s department’s, agencies, crown entities or any other bodies that the Minister is responsible for, if any, consume in 2024?

Fuel Type	2023	2024	2025
Petrol	8,181,816	7,828,243	7,361,530
Diesel	1,754,703	1,667,757	1,581,829

Notes:

- Data extracted 17 April 2026.
- Health New Zealand receives monthly fuel use data from its fuel suppliers. Data is independently verified within Health NZ’s organisation-wide annual emissions reporting in accordance with ISO 14064 3:2019 and deemed suitable for emissions reporting purposes, at the end of each financial year.
- Data for July to December 2025 is therefore not yet independently verified.
- Data relates to fuel use by the Health NZ fleet only and not fuel use by contracted external health service providers (e.g. emergency services, commissioned services) or any staff owned vehicle reimbursed fuel use.
