

WPQ 1989 (2025) Tables**Table 1: The number of applications processed for Emergency Housing during the period 1**

Application outcome	January 2019	February 2019	March 2019	April 2019
Grants	5,265	5,631	6,369	6,813
Declines	63	60	69	63
Total	5,325	5,694	6,435	6,876

Notes:

This is a count of applications processed. A client can have more than application processed in a time period. To protect confidentiality the Ministry of Social Development uses processes to make it difficult to identify individuals. These data tables have had random rounding to base three applied to all cell counts in the table. The impact of applying random rounding is that columns and rows may not add exactly to the given totals. The published counts will never differ by more than two counts. Random rounding does not round to zero.

Table 2: The number of Emergency Housing grants during the period 1 January 2019 to 31 December 2019

Age	January 2019	February 2019	March 2019	April 2019

Total	5,265	5,631	6,369	6,813

Notes:

This is a count of grants. A client can have more than one grant in a time period.

Region is based on the Work and Income region where the recommending case manager for the applicant is based.

The 'Other' region includes grants made through contact centres, MyMSD and centralised processing.

To protect confidentiality the Ministry of Social Development uses processes to make it difficult to identify individuals.

These data tables have had random rounding to base three applied to all cell counts in the table.

The impact of applying random rounding is that columns and rows may not add exactly to the given totals.

The published counts will never differ by more than two counts.

Random rounding does not round to zero.

Notes:

This is a count of grants. A client can have more than one grant in the time period.

Household composition of Emergency Housing applicants was not captured prior to 1 April 2020.

The number of children is declared at the time of each individual Emergency Housing grant.

To protect confidentiality the Ministry of Social Development uses processes to make it difficult to identify individuals.

These data tables have had random rounding to base three applied to all cell counts in the table.

The impact of applying random rounding is that columns and rows may not add exactly to the given totals.

The published counts will never differ by more than two counts.

Random rounding does not round to zero.
