

Table 38645 (2025). Number of districts that have reported mortality review data to the Health Quality and Safety Commission, broken down by year for the past 10 years.

	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025*
Number of Districts	19	18	20	20	19	17	18	10	10	8	4

*As at 12 August 2025.

Please note:

- The colour codes in the table above reflect that Health New Zealand was established in 2022 under the previous government.
- The Child and Youth mortality population include individuals who died at any time between their 28th day of life up to (but not including) their 25th birthday within New Zealand and encompasses all causes of mortality.
- The year in which a Case Review form was completed may be different from the year in which the individual concerned died.

This is unvalidated operational data and should not be treated as definitive or relied on as fact.
