Tamatha Paul to the Minister of Housing: How many proactive visits to landlords and property management companies have the Tenancy Compliance and Investigations Team made in each year since 2017, and how many of those visits, if any, identified non-compliance with the Residential Tenancies Act?

Tenancy Services Response:

The specific metric of “visits” is not a reportable field within the TIKa, which is the system used to record TCIT activities. As such, we are unable to provide a breakdown of proactive visits or associated non-compliance findings in the format requested.
