Notes:

- The table includes working age only (18 to 64 years).
- Main Benefits exclude NZ Superannuation, Veteran's Pension, Non-Beneficiary assistance, Orphan's Benefit and Unsupported Child's Benefit.
- Clients in service is based on the client having a case management programme tag and is assigned to a case manager.
- A client is counted once if they have multiple programme tags.
- IEP data can vary as clients move in and out of case management services.
- This data represents a figure captured at a point in time and is operational in nature therefore is subject to change.
- To protect confidentiality the Ministry of Social Development uses processes to make it difficult to identify an individual person or entity from published data.
- These data tables have had random rounding to base three applied to all cell counts in the table.
- Random Rounding does not round to zero. A value of one or two will be rounded to three.
- The impact of applying random rounding is that columns and rows may not add exactly to the given column or row totals.
- The published counts will never differ by more than two counts.
