Notes:

- This only includes priority A and B applications.
- This includes applications on both the Housing Register and Transfer Register.
- The A and B priority applications used in these tables are as at the time of accepting an offer of social housing, the application priority may have changed prior to this date.
- The financial year or quarter in which the tenancy was activated is the quarter in which the application has been reported as housed in.
- To protect confidentiality the Ministry of Social Development uses processes to make it difficult to identify an individual person or entity from published data.
- These data tables have had random rounding to base three applied to all cell counts in the table.
- Random Rounding does not round to zero. A value of one or two will be rounded to three.
- The impact of applying random rounding is that columns and rows may not add exactly to the given column or row totals.
- The published counts will never differ by more than two counts.
