General Notes:

This is a count of grants. A client can have more than one grant in the time period.

Amount granted is not necessarily the amount spent.

Confidentiality Notes:

To protect confidentiality the Ministry of Social Development uses processes to make it difficult to identify an individual person or entity from published data.

These data tables have had random rounding to base three applied to all cell counts in the table.

The impact of applying random rounding is that columns and rows may not add exactly to the given column or row totals.

The published counts will never differ by more than two counts.

Total Response Ethnicity Notes:

Ethnicity data is self-identified and multiple ethnicities may be chosen by an individual as fits their preference or self-concept.

Total response ethnicity means that if a person identifies with more than one ethnic group, they are counted in each applicable group.

Because a client can choose more than one ethnic response, the total number of ethnic responses will be greater than the number of clients.

'Not Specified' is where ethnicity is not recorded.

'Other ethnicity' is where ethnicities fall outside the reported ethnicities.
