Notes:

- The table includes working age only (18 to 64 years).
- This table exclude Supported Living Payment - Overseas.
- These are counts of declines, not clients and the same client may have been declined more than once in a given month.
- To protect confidentiality the Ministry of Social Development uses processes to make it difficult to identify an individual person or entity from published data.
- These data tables have had random rounding to base three applied to all cell counts in the table.
- Random rounding does not round down to zero, a value of one or two will be rounded to three.
- The impact of applying random rounding is that columns and rows may not add exactly to the given column or row totals.
- The published counts will never differ by more than two counts.
