

WPQ 9921 (2025)

Table 1: Average length of time from filing to disposal in the Canterbury Earthquake Insurance Tribunal for the 12 months ending 28 February 2025

For the 12 months ending	28-Feb-2025
Disposal time in days	551

Notes for Table 1:

- Time taken for cases to be disposed in Tribunal jurisdictions may be impacted by factors such as appeals to District and Senior Courts, rehearings, adjournments, settlement discussions, or cases being suspended or on hold.
- Tribunal data is extracted from a live dataset that is used for operational purposes, meaning the data will be updated with late data entry. Therefore, this data may differ to data reported elsewhere with a different extraction date. These tables were extracted on 03 March 2025.
- Disposal figures require a time period, not a single date for reference.
- Age of disposals is calculated in calendar days from the date the application is received to the date it is completed.
