

Appendix One: The number of people in prison that are currently on a waitlist to attend a rehabilitation programme, broken down by prison and rehabilitation service type, as at 12 June 2025.

Table notes:

- The table contains the number of unique people waitlisted per site per programmes group. If person is waitlisted for more than one programme in the same programmes group, they are counted once. If person is waitlisted for more than one programme in a different programmes group, they are counted once in each programmes group.
- A person's eligibility to participate in any particular programme can depend on a number of factors, including their security classification, identified risks and willingness to engage. Some people may be on a waitlist if it is not the appropriate time in their sentence to complete a programme. The figures below show the number of referrals to a programme service type and therefore includes those that have been referred but have not yet been assessed for suitability to a programme.
- Data below represents the current location of people on the waitlist.
- The data provided is manually recorded at each site and is provided to the best of Corrections' ability.

Prison	Addictions programmes	Rehabilitation programmes	Psychology programmes
Arohata Prison	5	10	-
Auckland Region Women's Corrections Facility	1	31	-
Auckland South Corrections Facility	6	132	65
