Notes:

- This includes only Overpayment debt, excluding Recoverable assistance and Fraud debts.
- Overpayment debt can be established on current and non-current client records.
- There are records that are not geocoded, which can include clients inside and outside the Auckland City Board.
- To protect confidentiality, the Ministry of Social Development uses processes to make it difficult to identify an individual person or entity from published data.
- These data tables have had random rounding to base three applied to all cell counts in the table.
- The impact of applying random rounding is that columns and rows may not add exactly to the given column or row totals.
- The published counts will never differ by more than two counts.
