

Appendix One: The number of people in prison that are currently on a waitlist to attend a rehabilitation service, as at 31 August 2024.

Table notes:

- A person may be counted multiple times if they are on a waitlist for more than one programme.
- Te Waka Anga Mua and Te Hau Ora O Tāne are Māori Pathways programmes delivered at Northland Region Corrections Facility, there is currently no one on a waitlist.
- Tēnei Au, Tēnei Au is a Māori Pathways programme delivered at Hawkes Bay Regional Prison. There is a current waitlist of 20 people.
- Drug Treatment Programmes are in the process of being redesigned. As part of the new pathway of care for alcohol and other drug (AOD) treatment, He Ara Whakapiki Oranga, Corrections is transitioning to new AOD High and Moderate Intensity programmes enabling better matching of treatment duration and intensity with the individual’s AOD need.
- The AOD High Intensity Programme with a waitlist of 102 people, and the AOD Moderate Intensity Programme with a waitlist of 185 people, cannot be broken down by prison as people may be transferred to different prisons depending on availability. Additionally, 460 people are awaiting assessment to determine their level of AOD need and which, if any AOD treatment programme best matches their level of AOD need.
- Te Ira Wahine is an intensive Kaupapa Māori AOD treatment programme that is delivered at Auckland Region Women’s Corrections Facility. This programme does not have a waitlist.
- The data provided is manually recorded at each site and is provided to the best of Corrections’ ability.
- A person’s eligibility to participate in any particular programme can depend on a number of factors, including their security classification, identified risks and willingness to engage. Some people may be on a waitlist if it is not the appropriate time in their sentence to complete a programme.
- The data below represents the current location of people on waitlists.
- Data may be subject to change over time as a result of retrospective assurance amendments being made.
- Some of these figures have been extracted from live databases and are accurate as at the day of their extraction.
