Notes for Table 1:

- Active age represents the active days between filing and report date (end of month); for criminal appeals and criminal trials, this excludes any time that a case is “on hold” due to the issuing of a warrant to arrest for the defendant.
- Civil cases are comprised of the following civil case types: Appeals, General Proceedings, and Originating Applications. This data excludes Probate.
- This data was extracted from the Case Management System used by the Courts on 05 July 2024. This is an operational system that is updated with late data entry. Therefore, this data may differ from data reported elsewhere with a different extraction date.
