Notes:

- The table includes working age clients only (18 to 64 years).
- There can be cases where sole parent clients can continue their sole parent rate when the children are no longer in their care, for a limited amount of time.
- To protect confidentiality, the Ministry of Social Development uses processes to make it difficult to identify an individual person or entity from published data.
- These data tables have had random rounding to base three applied to all cell counts in the table.
- The impact of applying random rounding is that columns and rows may not add exactly to the given column or row totals.
- The published counts will never differ by more than two counts.
