Notes:

Applications processed is the total number of granted and declined applications.

This is a count of grants and declines. A client can have more than one grant/decline in a period.

From 2 December 2019, The Ministry of Social Development has three options to record a client's or child's gender: Male, Female or Gender Diverse.

To protect confidentiality the Ministry of Social Development uses processes to make it difficult to identify an individual person or entity from published data.

These data tables have had random rounding to base three applied to all cell counts in the table.

Random Rounding does not round to zero.

The impact of applying random rounding is that columns and rows may not add exactly to the given column or row totals.

The published counts will never differ by more than two counts.

Table Two: Number of benefit Advance (grants + declines) processed from 1 July 2020 to 30 June 2025 by quarter ending, total response ethnicity and application outcome.

Quarter ending / Total Response Ethnicity	Client Ethnicity (counted once quarter)							Applications

Notes:

Applications processed is the total number of granted and declined applications.

This is a count of grants and declines. A client can have more than one grant/decline in a period.

To protect confidentiality the Ministry of Social Development uses processes to make it difficult to identify an individual person or entity from published data.

These data tables have had random rounding to base three applied to all cell counts in the table.

Random Rounding does not round to zero.

The impact of applying random rounding is that columns and rows may not add exactly to the given column or row totals.

The published counts will never differ by more than two counts.

Ethnicity data is self-identified and multiple ethnicities may be chosen by an individual as fits their preference or self-concept.

Total response ethnicity means that if a person identifies with more than one ethnic group, they are counted in each applicable group.

Because a client can choose more than one ethnic response, the total number of ethnic responses will be greater than the number of clients.

MELAA refers to Middle Eastern, Latin American, and African.

'Unknown' is where ethnicity is not recorded. 'Other' is where ethnicities fall outside the reported ethnicities.

Table Three: Number benefit Advance (grants + declines) processed from 1 July 2020 to 30 June 2025 by quarter ending and region.

Notes:

Applications processed is the total number of granted and declined applications.

This is a count of grants and declines. A client can have more than one grant/decline in a period.

To protect confidentiality the Ministry of Social Development uses processes to make it difficult to identify an individual person or entity from published data.

These data tables have had random rounding to base three applied to all cell counts in the table.

Random Rounding does not round to zero.

The impact of applying random rounding is that columns and rows may not add exactly to the given column or row totals.

The published counts will never differ by more than two counts.

The region 'Other' represents those service centres that do not represent a geographic location such as call centres and processing units.

Table Four: Number benefit Advance declines from 1 July 2020 to 30 June 2025 by quarter ending and decline reason.

Quarter ending / Decline reasons	A bond of 4 weeks' rent was not paid	A bond refund will be available to cover this cost	Already had a rent arrears payment in the last 52 weeks	Already received help for same/similar need in the past	Application not lodged within 12 months	Cash assets/Income exceed limit	Circumstances could have been reasonably foreseen	Cost of funeral-unveiling or koha must be met by client	Did not participate in budgeting	Does not meet all the criteria (rural sector S/down)	Lack of Representation	Landlord is not likely to continue the tenancy	More than 1 person applied to meet the same expense	No dependent children (Strike S/down)	Not Applicable	Not a compulsory school fee (e.g. school camps etc)	Not a long term patient (re-establishment costs)	Not a qualifying need	Not a qualifying relative (funeral - travel costs)	Not a signatory on the tenancy agreement	Not an economic purchase

Notes:

Applications processed is the total number of granted and declined applications.

This is a count of grants and declines. A client can have more than one grant/decline in a period.

To protect confidentiality the Ministry of Social Development uses processes to make it difficult to identify an individual person or entity from published data.

These data tables have had random rounding to base three applied to all cell counts in the table.

Random Rounding does not round to zero.

The impact of applying random rounding is that columns and rows may not add exactly to the given column or row totals.

The published counts will never differ by more than two counts.

Table Five: Number benefit Advance declines processed from 1 July 2020 to 30 June 2025 by quarter ending and assistance reason.

Notes:

Other' represents those service centres that do not represent a geographic location such as call centres and processing units.

Applications processed is the total number of granted and declined applications.

This is a count of grants and declines. A client can have more than one grant/decline in a period.

To protect confidentiality the Ministry of Social Development uses processes to make it difficult to identify an individual person or entity from published data.

These data tables have had random rounding to base three applied to all cell counts in the table.

Random Rounding does not round to zero.

The impact of applying random rounding is that columns and rows may not add exactly to the given column or row totals.

The published counts will never differ by more than two counts.
