

4799 (2024). Newborn enrolment with a GP or Kaupapa Maori provider rates since 2015.

Newborns Enrolled by:	3 Months of Age - Quarterly Enrolment Rate								
Prioritized Ethnicity	Sep-15	Sep-16	Sep-17	Nov-18	Sep-19	Sep-20	Sep-21	Sep-22	Sep-23
Total	73.5 5%	77.3 5%	75.3 2%	77.6 7%	91.6 9%	86.9 9%	89.1 4%	84.5 1%	87.7 9%
Target	90.0 0%	90.0 0%	90.0 0%	90.0 0%	85.0 0%	85.0 0%	85.0 0%	85.0 0%	85.0 0%

*Figures shown here may differ from other tables due to different data groupings.

Table notes:

- This measure is created using NES (National Enrolment Service) data to determine the number of enrolled babies and NIR (National Immunisation Register) data to determine the population of babies.
- The Annual Enrolment Rate as of September 2020 represents the proportion of babies attaining 6 weeks or 3 months of age over the period 16 September 2019 to 15 September 2020 who were enrolled with a PHO at that milestone.
- Enrolment targets are 85% of 3-month-olds.
- The definition of the measure changed in 2019. Refer to the "Definitions" tab for more information.
- Please note that the 2018 figure was produced in November instead of the standard September due to data quality issues.
