Data extracted 6 June 2025

Notes:

- **This is unvalidated operational data and should not be treated as definitive or relied on as fact.**
- Patients admitted acutely with ischaemic or unspecified Stroke during the 12 months ended 31 Dec 2024.
- Reflects where people who were treated with reperfusion therapy live rather than where they were treated.
- Reperfusion therapy includes people who received stroke thrombolysis, stroke clot retrieval (mechanical thrombectomy) or both.
