EECA	Peer Review of Home Combustion report - Economist	NZIER	Oct-25	\$10,000

PQ 9815:

9815 (2026) Since 27 November 2023, the following independent reviews, evaluations and inquiries have been commissioned by entities for which the Minister is responsible; the table lists the review, provider, commissioning and reporting dates, funding entity, and cost (excl. GST).

Table one:

Review	Supplier	Commissioning date	Date of final report	Funded by	Cost
Board-led Organisational Design Review	KordaMentha	December 2025	March 2026	EA	\$380,000
Independent assessment of the Authority's impact measures 2023/24 (for Annual Report)	Allen + Clarke Policy & Regulatory Specialist Limited	May 2025	23 September 2025	EA	\$40,238.40
Assessment of the Electricity Authority's progress addressing findings from its 2023 Strategic Baseline Review	Sapere Research Group	November 2024	28 February 2025	MBIE	N/A
Independent assessment of measures 2024/25 (baseline year under SOI 2024–2028)	Martin Jenkins & Associates Ltd	April 2024	8 August 2024	EA	\$40,400.24

Notes: We have interpreted the question as asking for independent reviews focussed on the Authority's performance and delivery. We commission independent external advice in the course of our policy development and regulatory work, and for a range of BAU operational matters that are not included here.

The final report of the Sapere Strategic Baseline Review (29 Aug 2023) falls before the requested timeframe and is therefore not listed; the 2024/25 progress assessment above is a subsequent, separate commission which follows on from the initial Strategic Baseline Review so has been included.

The Allen + Clarke and Martin Jenkins assessments are independent assessments of measures that accompany the Authority's Annual Reports and Statements of Intent. We have included them in this response for completeness.
