I am advised by the RBNZ that the cost to deliver its new website was $4,409,200 (including GST where applicable).

A breakdown of the costs is provided below:

Item	**Cost $ (,000)**
Vendors	2,333
Contractor project delivery	1,739
Software	334
Sundries and disbursements	3
Total	**4,409**

Note: The above includes all costs from the initial user research to determine requirements, content creation and design, through to the infrastructure development, build, migration, security testing and deployment. It also encompasses integration with our statistics and a search engine, as well as licenses, hosting costs, and third party security testing to ensure the website can safely publish information classified as PSR SENSITIVE. It does not include RBNZ staff time.
