General Notes:

- This is a count of grants and declines. A client could have more than one grant or decline in a period.
- Amount granted is not necessarily the amount spent.
- Household composition of Emergency Housing applicants was not captured prior to 1 April 2020.
- In some cases, children may have alternative or alternating living arrangements and may not necessarily be living in emergency housing for the entire duration in Emergency Housing.
- MSD region is based on the Work and Income region where the recommending case manager for the application was based at the time of the grant.
- The 'Other' region includes grants made through contact centres, MyMSD and centralised processing units.

Confidentiality Notes:

- To protect confidentiality the Ministry of Social Development uses processes to make it difficult to identify an individual person or entity from published data.
- These data tables have had random rounding to base three applied to all cell counts in the table.
- The impact of applying random rounding is that columns and rows may not add exactly to the given column or row totals.
- The published counts will never differ by more than two counts.

Notes:

- This is a count of declines. A client could have more than one decline in a period.

- To protect confidentiality the Ministry of Social Development uses processes to make it difficult to identify an individual person or entity from published data.
- These data tables have had random rounding to base three applied to all cell counts in the table.
- The impact of applying random rounding is that columns and rows may not add exactly to the given column or row totals.
