

Appendix One: The number of health and safety incident reports that have been completed during the month of August 2024, broken down by prison.

Table notes:

- The number of injuries also include injuries to contractors, prisoners and others that are not employed by Corrections.
- Frontline staff are encouraged to report all health and safety incidents, however minor.
- The category of injury also includes injuries that did not require any treatment or intervention.
- Data is retrospectively reviewed and updated regularly, it therefore may be subject to change.
- Near Miss or Hazard incidents cannot be further broken down by role, as the same incident may have been reported by multiple staff members.
- The numbers of staff, contractors and prisoners vary across Corrections-managed prisons, therefore caution is urged when comparing the figures below.
