

Table 46006 (2024).

Health New Zealand actual/budget financial result between April and June 2024.

Month	Variance
April	(209,722)
May	(144,572)
June	(688,139)

Table notes:

- Net Deficit in \$,000s
- The results include the deteriorating underlying run rate and several one-off impacts including COVID-19 stock write offs; adjustments to provisions for Holidays Act liability and other staff liabilities (Long service Leave, Retiring gratuities, CME); revenue clawback from the Ministry of Health for COVID and for Hauora Māori, and Accident Compensation Corporation Accredited Employers Programme liability, etc
- Data is as per the result reported at the end of each month.
