

Table WPQ 29592 (2026). How many people entered the Advanced Choice of Employment Resident Medical Officer (ACE-RMO) talent pool for each of the 12-month periods ending 31 December for the past 10 years; exited the ACE-RMO talent pool; and what was the net change for each period?

Year of ACE Match	No. of complete applications	No. of applicants who entered talent pool	No. of applicants who exited talent pool	No. of applicants remaining in talent pool as at 31 December
2016	516	46	16	30
2017	507	32	26	6
2018	533	31	20	11
2019	537	27	16	11
2020	561	30	14	16
2021	583	23	18	<6
2022	559	22	19	<6
2023	543	11	11	0
2024	563	21	21	0
2025	558	7	6	<6

Notes:

- Data extracted 25 June 2026.
- The number of people in the talent pool as at 31 December each year indicates the net change for each 12-month period.
- Data from 2016 and 2017 has been obtained from the manual master records as the data to cross reference is no longer available on the ACE RMO Portal.
- The talent pool for each intake year closes in August of the following year, thus resetting to zero the number of people in the talent pool each September.
- Counts of fewer than six have been suppressed with the symbol "<6" to protect privacy.
