Notes:

- The table includes working age (18 to 64 years) Jobseeker Support clients only.
- Ethnicity data is self-identified and multiple ethnicities may be chosen by an individual as fits their preference or self-concept.
- If a person identifies as Māori and also belongs to one or more other ethnic groups, they are counted in the Māori group only.
- A non-Māori person who identifies with multiple ethnic groups is counted only once.
- 'Unknown' is where ethnicity is not recorded.
- Territorial Local Authority is estimated based on the client's address recorded by the Ministry of Social Development at the time period.
- To protect confidentiality the Ministry of Social Development uses processes to make it difficult to identify an individual person or entity from published data.
- These data tables have had random rounding to base three applied to all cell counts in the table.
- The impact of applying random rounding is that columns and rows may not add exactly to the given column or row totals.
- The published counts will never differ by more than two counts.
