\*Where a household has been identified in the Auckland region but cannot be broken down more precisely, it is assigned "Auckland Other"

There will likely always be households whose accommodation the Ministry cannot identify after they leave EH as information is limited based on what is shared and collected in systems. For example, there may be more people who went into private rentals that the Ministry cannot see because they did not access Accommodation Supplement.

The Ministry is continuing to work to better understand the location and demographics of those who leave EH.
