Notes

- A single patient with multiple referrals will be counted multiple times.
- Declined referrals are excluded.
- This data is subject to data quality and timeliness of provider submissions. Recent months may be incomplete.
- Northland district has incomplete data since April 2025.
- The denominator includes only referrals that received at least one in-scope community activity; referrals that remained open without activity, or were discharged without activity, are not included. The percentages therefore reflect timeliness among those who accessed community services, not access rates across all referrals received (however, this is a feature of current nationally reported target)
